Appendix 6: RMNCH knowledge products and global public goods (2011-2015)

Year	Product	Agency	Link
Thematic area 1: Policy, planning and costing			
Area 1: Mapping/monitoring of global and country activities within the broad H4+ scope of work and implementation of the Global SRMNCH Strategy 2011-12.			
2012	Mapping of major global MNH initiatives and agreed list of H4+ priority countries developed.	UNICEF	Report with no link
2013	Final version of tool for rapid assessment of RMNCH interventions and Commodities (RAIC) disseminated.	UNICEF	H4+ activities disseminated during the 2013 Global Newborn Health Conference (GNHC) in Johannesburg, SA; http://newborn2013.com
	Every newborn bottleneck analysis (BNA) tool used during country consultations on newborn care.	UNICEF	Bottleneck analysis tool for ENAP disseminated through website and during country (at least 5 countries) and regional (Asia, Africa) newborn consultations www.everynewborn.org *https://www.dropbox.com/s/t4a8rw3m87mmdbg/Every-Newborn-Bottleneck%20Analysis%20tool-12-August-2013.pdf?dl=0*
2014	Strategic goals, targets and objectives for ending preventable maternal, newborn and child deaths defined up to 2030.	WHO	Every Newborn An Action Plan to End Preventable Death (2014) *https://www.everynewborn.org/every-newborn-action-plan/*
	RMNCH quality of care scorecards using DHS and MICS data for 74 priority countries.	WHO	Maternal, newborn, and child health scorecards (2016) *http://www.who.int/maternal_child_adolescent/documents/countries/indicators/en/*
2015	1. Revision of Lives Saved Tool for updating the OneHealth and LiST instruments. 2. Policy briefs and guidance published 3. a) Core competencies in adolescent health and development for primary care providers and to assess the adolescent health and development component in pre-service education; b) A standards-driven approach to improve the quality of health-care services for adolescents; c) Building an adolescent competent workforce; d) Preterm guidelines; e) Maternal and peripartum sepsis guidelines; f) Newborn resuscitation; g) Feeding low birth weight babies; h) Guidance note on improving quality of paediatric care;	WHO	LiST: Lives Saved Tool www.livessavedtool.org a) Core competencies in adolescent health and development for primary care providers including a tool to assess the adolescent health and evelopment component in pre'service education of health-care providers (2015) *http://apps.who.int/iris/bitstream/10665/148354/1/9789241508315_eng.pdf?ua=1&ua=1* b) A standards-driven approach to improve the quality of health-care services for adolescents (2015) *http://apps.who.int/iris/bitstream/10665/184035/1/WHO_FWC_MCA_15.06_eng.pdf* c) Building an adolescent competent workforce (2015) *http://apps.who.int/iris/bitstream/10665/183151/1/WHO_FWC_MCA_15.05_eng.pdf* d) WHO recommendations on interventions to improve preterm birth outcomes (2015) *http://apps.who.int/iris/bitstream/10665/183037/1/9789241508988_eng.pdf?ua=1* e) WHO recommendations for prevention and treatment of maternal peripartum infections (2015) *http://apps.who.int/iris/bitstream/10665/186171/1/9789241549363_eng.pdf* f) Guidelines on basic newborn resuscitation (2012) *http://apps.who.int/iris/bitstream/10665/75157/1/9789241503693_eng.pdf?ua=1* g) Breastfeeding of low-birth-weight infants (2015) *http://www.who.int/elena/titles/supplementary_feeding/en/* h) Improving paediatric quality of care at first-level referral hospitals (2015) *http://www.who.int/maternal_child_adolescent/documents/paediatric-hospital-care-quality/en/*
